

## geoAMPS hires Alternative Energy Specialist

Dan Liggett

February 12, 2013

*"Having helped design a modular and scalable software suite for e-commerce, I was excited to recognize many of the same strengths in the comprehensive but flexible enterprise solution offered by geoAMPS."*

Sean Scheiderer has joined geoAMPS as Business Development Manager. geoAMPS is a technology company located in the Columbus, Ohio, area that provides software solutions to manage land rights and infrastructure assets.

"We are pleased to have Sean join the geoAMPS team," Yogesh Khandelwal, company President and Chief Executive Officer, said. "As our alternative energy specialist, Sean will be invaluable in serving our growing customer base in the renewable energy industry."

For almost a decade, Sean developed information technology and fulfillment services for businesses looking to offer products on amazon.com.

"Having helped design a modular and scalable software suite for e-commerce, I was excited to recognize many of the same strengths in the comprehensive but flexible enterprise solution offered by geoAMPS," Sean said. "I look forward to working closely with our customers."

He earned both bachelor's and master's degrees in Science and Technology from The Ohio State University. Sean also was a doctorate scholar and went to law school there. He won an Excellence in Teaching award, given to only 10 out of 3,000 instructors at Ohio State each year.

"I am interested in the language used to comprise and discuss science and technology, as well as its cultural and legal implications," he said.

*Dan Liggett is Communications and Public Relations Manager for geoAMPS, a technology company in the Columbus, Ohio, area that specializes in software solutions to manage land rights and infrastructure assets.
